

# Growing in Maturity

## Maturing in Society | Philip Shumake

10:00AM

What are the societal “norms” and expectations in today’s world? And how does a Christian handle these expectations and pressures from the society we live in? Our society has shown a negative light on the idea of “men being men” and “women being women”. Is it wrong for a husband to provide for his family while his wife is the keeper of the home? Or must every person, guy or girl, attend college and have a secular job as their “ultimate” goal in this life? What does God say on this matter?

## Maturing in Relationships | Nathan Dobbs

11:00 AM

What do godly relationships look like? How can Christians create and foster similar relationships we find in the bible?

Friendship – What does it take to be a friend? Or to be a godly friend? How do you know when your friend has been wounded? What are some good habits and characteristics we ought to have in order to be a godly friend?

Mentorship – How can a mentor be helpful to a younger person? What wisdom or practical knowledge do they have to share? And how should a younger person receive such training? How does each role help benefit the other person?

Relationship – Dating is about finding someone you can get married to, not finding someone who can provide some entertainment. What are some things to consider when looking for and maintaining this type of relationship?

## Maturing in Christ | Steve Tramell

5:30 PM\*

With the many distractions and worldly expectations young Christians face, how does someone stay rooted in Christ? What are some characteristics we should focus on as we strive to walk with Christ? What are some temptations we will face along the way? How will those temptations change as we mature?
